LANGUAGES

Spanish: Native

English: C1 Advanced

TECHNICAL SKILLS

Backend:

Node.js • Express • Go • REST APIs

Frontend:

React • Next.js • JavaScript • TypeScript

Databases:

PostgreSQL • MySQL • MongoDB • Redis

Cloud & DevOps:

Docker • AWS

Tools:

Git • Postman • VS Code • IntelliJ

Methodologies:

Agile • Scrum • Kanban

Additional Technologies:

Java • Python • C#

ABOUT ME

Full Stack Developer with 5+ years of experience building enterprise applications, backend services, APIs, payroll systems and third-party integrations.

Experienced working in distributed international teams, supporting production systems, troubleshooting complex issues and delivering scalable solutions across multiple environments.

Strong background in JavaScript, TypeScript, Node.js, REST APIs, PostgreSQL and Docker, with experience in cloud technologies, system design and AI-related applications.

Passionate about learning new technologies, solving complex technical challenges and continuously improving software quality and performance.

PROFESSIONAL EXPERIENCE

Full Stack Developer | ADP Payroll Platform (via SLINGR.io) Sep 2021 - Present

Technologies:

JavaScript, TypeScript, Node.js, REST APIs, PostgreSQL, Docker, Git, Agile

- Developed and maintained enterprise payroll and HR applications supporting large-scale business operations.
- Worked on backend services, APIs and integrations used for payroll processing and employee management.
- Worked on payroll and HR integrations supporting employee lifecycle management, compensation updates and payroll processing workflows.
- Investigated and resolved customer-reported production issues across multiple environments.
- Performed performance analysis and optimization for applications processing large volumes of employee data.
- Collaborated with international remote teams using Agile methodologies.
- Participated in troubleshooting, root cause analysis and feature improvements across distributed systems.

Golang Developer | Veritone (via SLINGR.io) Jul 2023 - Sep 2023

Technologies:

Go, APIs, AI Applications, Backend Services

- Contributed to a Go application leveraging AI technologies to generate automated sports commentary.
- Investigated issues and implemented bug fixes.
- Worked with concurrent processing and backend services.

EDUCATION

CESIT

Higher Technical Degree in Software Development

2018 - 2021

- Three-year Software Development program covering software engineering principles, system design and application architecture.
- Studied databases, networking, programming languages, communication systems, statistics and technical English.
- Designed and developed individual and team-based software projects using different technologies and development methodologies.
- Built a strong foundation in software analysis, problem solving and system development.

Henry

Full-Stack Developer Bootcamp

2021

- Intensive full-stack development program.
- Team-based projects using Agile methodologies.
- Developed and delivered a full e-commerce application.

ETIEC - Technical high school

Electrical Technician

2010 - 2015

- Technical education focused on electrical systems and engineering fundamentals.

COURSES & CERTIFICATIONS

- **Complete AI Engineer Training: LLMs**
Udemy - In Progress
- **Professional English**
OpenEnglish - In Progress
- **Go: The Complete Developer's Guide**
Udemy - Complete
- **Java Programming - Beginner to Master**
Udemy - Complete
- **Introduction to AI with Python**
Domestika - Complete

GAME DEVELOPMENT & 3D DESIGN

- **Introduction to Unity for 3D Video Games**
Domestika - Complete
- **Introduction to Unity for 2D Video Games**
Domestika - Complete
- **Unreal Engine 4 for Video Games**
Domestika - Complete
- **Introduction to Rigging for Animation**
Domestika - Complete
- **Low-poly character modeling for video games**
Domestika - Complete
- **Ultimate Blender 3d Character Creation & Animation Course**
Udemy - Complete
